

# CUXPORT - IN POLE POSITION

## THE X-PRESS LINK TO SEA

# WE ARE YOUR PARTNER HEAVY CARGO AND ONSHORE / OFFSHORE WIND ENERGY

Ranging from A for automobiles to W for wind power systems, we are here to offer you tailor-made solutions for your logistic requirements – thanks to the top location and trimodal connections of our modern deep-water multipurpose terminal.

## WITH US YOU ARE IN POLE POSITION

Located directly at the Elbe estuary and close to the Kiel Canal, our lock free deep-water terminal is strategically positioned and easily accessible for international transport routes. Another major plus are our efficient multimodal connections to the European hinterland: It takes trucks only two minutes to reach the A27 motorway. Direct and high-performance rail connections to the German rail network are available. Furthermore, the river Elbe connects us to the European inland waterways network. The Cuxhaven-Nordholz airport, a logistics hub for air freight and a base for offshore service, is also in the immediate vicinity.

## YOUR BENEFIT: OUR STRONG FAMILY

Cuxport is a joint venture of HHLA Hamburg and the Rhenus Logistics Group. Within our family customers can profit from a worldwide network of transport services, warehousing facilities and logistic specialists. Optimized roundabout traffic at A27 motorway allowing easy port access for extra long and wide components road transports like project cargo or blades.

# OUR PROMISE.

# RHENUS CUXPORT- HOW WE EXCEL

## OUR ROUTES FOR YOUR DESTINATIONS

In line with the efficient and careful transshipment and storage of your cargo, Cuxport also ensures secure and fast processing of the entire freight documentation. We enable fast customs clearance of your cargo and also take care of port agency matters for shortsea and deep-sea vessels.

With five berths, a water depth of up to 15.80 meters and ample storage space also for heavy cargo, we are well prepared for any logistics challenge. We currently serve a comprehensive network of roll-on / roll-off and container line services ranging from Wes-

tern Europe, the UK, Scandinavia, the Baltic states and up to Iceland.

Discover our current connections! (Link/QR-Code)

- Priority on health and safety
